Emily Huettl, Assistant City Engineer	701-857-4100

**III. DESCRIPTION**

A. Background

The 42<sup>nd</sup> St Intersection project was constructed in 2018 as part of a NDDOT Urban Regional program project.

B. Proposed Project

The project has gone through the final payment process and the NDDOT is requesting final reimbursement for the project. The City's final billing is in the amount of \$10,225.22.

C. Consultant Selection

SRF Consulting was selected by the NDDOT. Bechtold Paving was awarded the construction contract through the NDDOT.

**IV. IMPACT:**

A. Strategic Impact:

The intersection of US 2 and 42nd St serves as a major access point to US 2 for both eastbound and westbound traffic in the area. To the east of the intersection 55th Crossing development, Nedrose School, NDDOT offices, and implement dealers need better access to the highway. To the west, new and existing industrial areas, City of Minot Public Works operations, and existing housing need better access to the highway. The re-alignment, traffic signal, and adequate turn lanes will solve the access issues, level of service, and line of sight issues.

B. Service/Delivery Impact:

N/A

C. Fiscal Impact:

The project was primarily funded by the NDDOT. The City had cost matches on the roadway and storm sewer portions of the project. The water and sewer was funded 100% by the City.

Project Costs

The final project costs and breakdowns are listed on the attached final billing. The City's cost share came in over the estimated amount by \$36,227.

Project Funding

The City's cost share came from water distribution budget, highway reserves, GO bonds, and state oil & gas funds.

**V. ALTERNATIVES**

N/A

**VI. TIME CONSTRAINTS**

Timely payment must be made to the NDDOT.
