III. DESCRIPTION

A. Background

Each year, the Sewer Department budgets funds for sewer main replacement in areas where old sewer mains are in poor condition. The proposed improvements are necessary because of the high maintenance costs over the past several years.

On Tuesday, May 26, 2020, bids were opened for the 2020 Sanitary Sewer Rehab Project. Below is a copy of the bid tabulation showing the different bids:

B. Proposed Project

Work for this project this year will mostly concentrate in areas of town where tree roots penetrate older sewer mains causing high potential for sewer backups. These mains are mostly in decent condition so cure in place lining systems are an excellent rehab method without needing to excavate in the street.
