A further express condition of this permit/license is that all costs of installation, maintenance, and replacement of the encroachment conditions shall be the sole responsibility of the Grantee.

Failure of the Grantee to meet the express conditions of this permit/license will result in the automatic termination of this permit. At the City's discretion, the City may order the Grantee to remove the encroaching conditions authorized herein within thirty days after the City shall have sent to the Grantees at their address last known to the City a notice of such revocation. If the Grantee fails to remove the encroaching conditions in a timely manner, the City may perform the work and special assess the costs thereof to the Grantee.

The City retains the full right to revoke this permit/license for any reason, for good cause, for bad cause, or for no cause at all, and if it does so, it shall provide the Grantee with notice thereof, whereupon the Grantee is under the same obligation to restore the property upon which the encroaching conditions are located to its original condition before the granting of this permit/license.

The Grantees shall also pay to the City a \$100.00 fee for the processing and issuance of this revocable encroachment permit/license, with said fee being paid to the Inspection Department of the City before authorization for placement of the encroaching condition is granted by the City.
