

TO: Mayor Shaun Sipma

Members of the City Council

FROM: Dan Jonasson, Director of Public Works

DATE: June 15, 2021

SUBJECT: P# 3529.04B MREFPP PHASE MI-4B MAPLE DIVERSION RAW WATER LINE RELOCATION

I. RECOMMENDED ACTION

1. Recommend Council approve plans and specifications and recommend approval to SRJB for bidding of the Raw Water Line Utility relocation portion of the Maple Diversion MI-4B of the MREFPP.
2. Approve the resolution of funding.

II. DEPARTMENT CONTACT PERSONS

Dan Jonasson, Director of Public Works	857-4140
Ryan Ackerman, Administrator – SRJB	857-8737

III. DESCRIPTION

1. Background

Providing flood risk reduction for Minot is large part of the overall Mouse River Plan. Relocating the raw water well line that currently cross the alignment of the Maple Diversion, will allow the work to proceed in a more efficient manner. Relocating this line and tying into the existing well lines in Oak Park is a more cost effective option than lowering this line as it crosses the Maple Diversion alignment.

B. Proposed Project

The Souris River Joint Board intends to bid phase MI-4B – Maple Diversion Utility relocation.. This project includes re-routing of a raw water well line that crosses the Maple Diversion alignment path.

C. Consultant Selection

Consultant selection was done by SRJB in accordance with ND State Water Commission requirements.

IV. IMPACT:

A. Strategic Impact:

Part of the basin-wide strategy to reduce the risk of flooding within the Mouse River valley.

B. Service/Delivery Impact:

N/A

C. Fiscal Impact:

The Engineer's Estimate for this project is \$345,473.10 with the cost being paid by the State (65%) and the City of Minot (35%).

V. **ALTERNATIVES**

N/A

VI. **TIME CONSTRAINTS**
