Public Law PL 113-2 (the Disaster Recovery

Appropriations Act 2013) and the Federal Register Notice dated June 7, 2016, Community Development Block Grant National Disaster Resilience (CDBG-NDR).

The sub-award from the Grantee to the Sub-recipient, which is described below, is for the purpose of carrying out a portion of the Federal award described in section I of this Agreement and creates a Federal assistance relationship with the Sub-recipient.

Federal Award Identification Number: B-13-MS-38-0002

CFDA Number: 14.272 CDBG-NDR

Federal Award Date: September 21, 2016

Federal award project description:

The Grantee received approximately \$74.3 million from the National Disaster Resilience Competition (NDRC) to fund three NDRC projects: reduce flood risk and improve water management, build affordable resilient housing and neighborhoods, and foster economic resilience and diversification. This Agreement supports one of the critical unmet recovery needs in Minot, developing affordable housing to address the needs of vulnerable residents by increasing the supply and resilience of long-term affordable housing that fosters livability and the long-term viability and sustainability of Minot neighborhoods. The housing funded through this NDR loan will be kept affordable for tenants with incomes at or below 80 percent of the area median income for Ward County, ND for a period of at least twenty (20) years after the completion of the project construction commencing upon the date that the Sub-recipient receives the certificate of occupancy issued by the City is complete (hereinafter "Affordability Period").

The original award for this project was made through a sub-recipient agreement between the Grantee and Lutheran Social Services Housing, Inc. In January, 2021, the sub-recipient's parent corporation, Lutheran Social Services North Dakota became insolvent and ceased operations. Prior to the date of insolvency, Lutheran Social Services Housing, Inc. had met the agreement obligations of acquiring the needed real property (Property previously described in this Agreement), undertaking necessary site improvements to the Property, and preparing the project design and construction specifications. The Grantee working in conjunction with the Court appointed receiver for Lutheran Social Services North Dakota, has been able to secure title to the Property and ownership of the construction specifications and design for the project. Sub-recipient, through this Agreement, has agreed to assume the role and responsibility for completing the project as originally conceived with Lutheran Social Services Housing, Inc. and the Grantee has through this Agreement agreed to convey title to the Property to Sub-recipient as well as the project design and construction specifications, so long as the Sub-recipient fulfills all of its obligations under this Agreement.

Contract Manager:

John Zakian, NDR Program Director and Chief Resilience Officer will serve as the Grantee's primary contract manager for this project. Mr. Zakian may designate a day-to-day contract manager for the project. All reports, notices, and other communications required under or related to this Agreement shall be directed to the individuals identified below. Mr. Zakian will be the final approver of project draw requests, notices to terminate the contract as provided herein, and will approve all changes except those that increase the total contract amount which must be approved by Mr. Zakian and by the City Council.

It is acknowledged that no indirect cost rate shall be used for this project and for disbursement of any of the funds pursuant to this Agreement.

It is understood and agreed that the total amount of the funds used under this Agreement shall be used for the Project outlined in this Agreement. Should the Project not be completed, be partially completed, or completed at a lower cost than the original budget, the amount reimbursed to Sub-recipient shall be only for the amount spent by Sub-recipient for eligible project expenses. For any funds received under this Agreement for which expenditure is disallowed subsequent to payment to Sub-recipient, Sub-recipient shall reimburse those funds back to the Grantee.

Sub-recipient acknowledges that the funds being provided by the Grantee for the Project are received by the Grantee pursuant to the Housing and Community Development Act of 1974 as amended and that expenditures of these funds shall be in accordance with the provisions of the Act and all pertinent regulations issued by agencies of the federal government. Sub-recipient agrees to comply fully with all federal, state, and local laws applicable to its operation whether or not expressly referred to in this Agreement.

II. 17 UNIT MULTI-FAMILY PROJECT

The National Disaster Resilience program focuses on disaster recovery and resilience. It is important to identify the resilience goals of this project and the process used to evaluate and determine the specific resilience elements for the affordable rental units. In the aftermath of the historic 2011 flood in Minot, the Grantee has made efforts to respond to the housing needs of LMI families affected by the flood, evaluated the evolving housing challenges resulting from the flood, and the oil boom that further complicated the affordable housing challenge facing Minot. Affordable housing is frequently vulnerable during and after natural disasters and LMI residents are particularly challenged because they do not have the resources to help them recover from disasters. Because of the impact of the 2011 flood and the revised FEMA FIRM maps, there is a shortage of quality, long-term affordable housing in Minot. Long-term affordable rental units for LMI families are difficult to find in many resilient areas of the City. Providing long-term affordable rental units is essential to reducing the vulnerability of LMI families to disasters, hazards and environmental risks such as flooding.

Sub-recipient has agreed to continue and complete the Lutheran Social Services Housing, Inc. Inc. plan to construct 17 new long-term affordable rental units which Sub-recipient will make available for occupancy for LMI families and individuals outside of the new FEMA flood plains and within the Grantee's designated Resilience Area for the Affordability Period.

Investment in long-term resilience has proven to be a smart investment for communities and is essential for affordable housing assets that many vulnerable residents rely on. Resilient housing is more environmentally

sustainable, accessible, and energy efficient and investments in long term resilience can help to reduce expenses and costs helping to ensure more economically sustainable affordable housing.

III. SUB-RECIPIENT OBLIGATIONS

As a condition of receiving this sub-award, the Sub-recipient shall manage and administer the multifamily rental project, including all required project procurement, design, preparation of plans and specifications for new construction, preparation of bids for construction including green-building and accessibility, construction, inspection, and completion of the work described in this Agreement. The Sub-recipient shall complete the activities in a manner satisfactory to the Grantee and consistent with the terms of conditions of this Agreement and applicable Federal statutes and regulations.

In addition, Sub-recipient shall subdivide the Property described herein into 2 (two) parcels, one of which will be a parcel for the Family Homeless Shelter (which is funded under a separate sub-recipient agreement) and one which will be for the 17 unit LMI rent housing. Sub-recipient understands and agrees that both parcels shall be deed restricted as set forth in the two sub-recipient agreements and as required for receipt and use of the CDBG-NDR funds. The deed restriction pursuant to this Agreement shall include language approved by the City which includes the requirement that the Property and all improvements on the Property shall meet the affordability requirements for the 20 year Affordability Period set forth in this Agreement and that the property owner shall be responsible for providing the City quarterly status reports showing all units occupancy status throughout the Affordability Period. In addition, any deed relating to the Property described herein shall contain a right of reversion provision if there is any default of either sub-recipient agreement by the Sub-recipient. Sub-recipient shall cause any lien or encumbrance Sub-recipient creates with respect to any portion of the real property or improvements to the real property to be expressly subordinate to the Grantee's rights of reversion set forth in this Agreement and any deed relating to the real property associated with this Agreement.

A. Prohibited Activities

The Sub-recipient may only carry out the activities described in this Agreement. The Sub-recipient is prohibited from charging to the subaward the costs of CDBG ineligible activities, including those described at 24 CFR 570.207, and from using funds provided herein or personnel employed in the administration of activities under this Agreement for political activities, inherently religious activities, or lobbying.

The Sub-recipient agrees to comply with the following obligations prior to receipt of any funds:

The Architect will be selected through a procurement process that meets HUD requirements. The Architect will prepare a detailed project budget reflecting estimated costs for the construction and prepare a milestone schedule for the project. The project budget for construction, site improvements and construction utilities will provide the necessary details to fully flesh-out project costs and these must be adequately and correctly accounted for in project draw requests. Guidance will be provided to Sub-recipient regarding project budget requirements. Sub-recipient and their Architect will coordinate with the designated Grantee personnel during the preparation of the plans and specifications to ensure the final plans will meet HUD requirements and applicable City codes and ordinances, green building standards, and UFAS standards.
4. Sub-recipient may procure the services of a qualified construction manager and/or construction inspector to assist in the delivery of this project. Reasonable costs for these services will be included in the project budget in accordance with applicable HUD requirements and regulations.
5. Sub-recipient must have written approval for all contracts. Prior to awarding a contract using CDBG-NDR funds, Sub-recipient shall submit to the Grantee all procurement documents such as advertisements for professional services, Invitation to Bids, Request for Qualifications, cost estimates prior to advertisement, cost reasonableness analysis or other actions to procure contractors for this project. In addition, Sub-recipient shall provide a copy of the Project Plans and Specifications for new construction and the Cost Estimate prepared by Architect to the Grantee's NDR Program Manager and/or another designated representative. Sub-recipient and their Project Architect will meet with the Grantee's NDR Program Manager, other designated representatives, and Sub-recipient Project Manager to review the plans and specifications for the project and project budget.

Sub-recipient shall track all program income and provide annual documentation to the Grantee to monitor program income. Rental income from the 17 units shall not be treated as program income and will be used to support operation and maintenance of the 17 units as well as the Family Homeless Shelter (a separate CDBG-NDR project) on the same site. Prior to close-out the Grantee will make a final determination for the reuse of Program Income, that will continue to accrue until the close-out of the twenty-year affordability period for the project. Before the close of the affordability period the Grantee will monitor the project to comply with HUD's program income and asset requirements.

In addition to other URA requirements, these regulations (49 CFR 5 24.403(d)) implement Section 414 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 USC 5 5181, which provides that:

"Notwithstanding any other provision of law, no person otherwise eligible for any kind of replacement housing payment under the [URA] shall be denied such eligibility as a result of his being unable, because of a major disaster as determined by the President, to meet the occupancy requirements set by such Act".

2. Inform affected persons of their rights and of the acquisition policies and procedures set forth in the regulations at 24 CFR Part 42.

K. Nondiscrimination

The Sub-recipient will comply with 24 CFR part 6, which implements the provisions of section 109 of title I of the Housing and Community Development Act of 1974 (Title I) (42 U.S.C. 5309). Section 109 provides that no person in the United States shall, on the ground of race, color, national origin, religion, or sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity funded in whole or in part with Federal financial assistance.

Section 109 of the HCDA makes these requirements applicable to programs or activities funded in whole or in part with CDBG-DR funds. It further provides that discrimination includes a failure to design and construct facilities for first occupancy no later than January 26, 1993, that are readily accessible to and usable by individuals with disabilities. Further, the ADA requires the removal of architectural barriers and communication barriers that are structural in nature in existing facilities, where such removal is readily achievable—that is, easily accomplishable and able to be carried out without much difficulty or expense.

The Sub-recipient shall comply with the requirements of Title VI of the Civil Rights Act of 1964 (P. under 24 CFR part 1. The identity of complainants shall be kept confidential except to the extent necessary to carry out the purposes of 2 CFR part 1, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder.

As a condition to the approval of this Agreement and the extension of any Federal financial assistance, the Sub-recipient assures that the program or activities described in this Agreement will be conducted and the housing, accommodations, facilities, services, financial aid, or other benefits to be provided will be operated and administered in compliance with all requirements imposed by or pursuant to this Part 1.

In all other cases the assurance shall obligate the Sub-recipient for the period during which Federal financial assistance is extended pursuant to the contract or application. This assurance gives the Grantee and the United States a right to seek judicial enforcement of the assurance and the requirements on real property.

In the case of real property, structures or improvements thereon, or interests therein, acquired with Federal financial assistance under this Agreement or acquired with CDBG-NDR funds and provided to the Sub-recipient Under this Agreement, the instrument effecting any disposition by the Sub-recipient of such real property, structures or improvements thereon, or interests therein, shall contain a covenant running with the land assuring nondiscrimination for the period during which the real property is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits.

Exhibit B
CDBG-NDR Agreement
Project Description/Scope of Work

The National Disaster Resilience program focuses on disaster recovery and resilience. It is important to identify the resilience goals of this project and the process used to evaluate and determine the specific resilience elements for the affordable multi-family homes. In the aftermath of the historic 2011 flood in Minot, the City has made efforts to respond to the housing needs of LMI families affected by the flood, evaluated the evolving housing challenges resulting from the flood, and the oil boom that further complicated the affordable housing challenge facing Minot.

Affordable housing is frequently vulnerable during and after natural disasters and LMI residents are particularly challenged because they do not have the resources to help them recover from disasters. Because of the impact of the 2011 flood and the revised FEMA FIRM maps, there is a shortage of quality affordable multi-family resilient homes available in Minot. Affordable homes for LMI families are difficult to find in some resilient areas of the City. Providing long-term affordable rental units is essential to reducing the vulnerability of LMI families to environmental risks such as flooding. Sub-recipient primary goal is Developing and Enhancing Resident Community Resilience. Sub-recipient has proposed to continue to build seventeen (17) long-term affordable rental units to be rental units that are affordable to LMI families outside of the new FEMA flood plains and within the City's designated Resilience Area. These units will meet the green building standards (Energy Star) and UFAS for accessibility.
