III. DESCRIPTION

A. Background

Public Works has been working with Apex Engineering to rehab some older lift stations in the City. Some of these lifts have original pumps and equipment from the 1970s. In 2016, Apex provided design and construction engineering services to rehab Perkett, 16th St, and Muus lift stations. In 2017, we did similar work at Burdick and Carney Lifts. CC Steel was the low bidder for the project and they have completed all items remaining for the project.
